

# FIRE 155 RADIANT HEATER

PART #48.7001

**VELOCI**  
PERFORMANCE PRODUCTS

## ABOUT

Veloci's Fire155 Heater is a revolutionary Radiant Mobile heater that stands in a class of its own as the largest in the world. The innovation of the Italian Fire 155 Infrared Heater lies in the elimination of the refractory material cone that surrounds the conical combustion chamber which is typical of competitors' units. The Fire 155 features a metallic, forced air insulation pocket between the combustion chamber and the external protection cone. The cooling air is blown through the pocket by the burner fan and pushed into the environment being heated. This method of heating, effectively serves as a hybrid style of heating through the use radiant and forced air heat. This innovative technology overcomes the well known problem of fragility within the cone of competitors' models while providing a safer unit when in operation due to the air insulated cone.

## FEATURES:

- 155,000 BTU Output -> Highest in the world
- Adjustable Tilt
- 1.1 gallons per hour fuel consumption rate
- 16 hour run time
- Sliding Floor Shield
- Poly Carbon Shock Proof Tank
- Single Point Lifting Bail
- Folding Handle
- Fuel Gauge
- 161 lbs Dry Weight
- CSA Approved
- Low Noise Level
- Dual Heating Method
- 99.9% Combustion Efficiency
- 2 PPM CO Emissions
- Operating Amp Draw at 4.05 A - Startup Spike approximately 7 A
- Thermostat Outlet provided (Thermostat Sold Separately)

### Recommended Accessories:

- Thermostat w/ 33' Cord - Part #48.7101
- Fire 155 Annual Maintenance Kit - Part# 48.7273

### Approved Fuels by Ambient Temperature:

- Kerosene or Jet Fuel at -4° F or below
  - Diesel Winter Blend between 32° F to -4° F
  - Diesel #2 or Off-Road Diesel for 32° F or above
- \*No Bio-Diesel\*\*
